## 1 Policy statement

*“Good mental health is when you are most able to be yourself. You see what is best in people, you treat everyone as you would want to be treated and you are able to respond to their needs. You will eat healthy food, dress well and enjoy many exciting lessons and activities. It means knowing that you are supported in school and that if you have difficulties – inside and outside of school - that there are people you can talk to. Ultimately, good mental health is knowing when your glass is half full.”*

*The Sapling*

- 1.1 At St James Senior Girls' School (School), we aim to support and promote good mental health for every pupil and member of staff. We pursue this aim using both universal, whole school approaches and specialised, targeted approaches aimed at members of the School community.
- 1.2 In addition to promoting good mental health, we aim to recognise and respond to mental ill health. By developing and implementing practical, relevant and effective mental health policies and procedures we can promote a safe and nurturing environment for pupils affected both directly and indirectly by mental ill health.

## 2 Scope

- 2.1 This document describes the School's approach to promoting good mental health and wellbeing. This policy is intended as guidance for all staff including non-teaching staff and governors. This policy should be read in conjunction with the following policies:
  - Administration of Medicines and First Aid policies in cases where a pupil's mental health overlaps with or is linked to a medical issue.
  - SEND policy where a pupil has an identified special educational need and/or disability.
  - Safeguarding and Child Protection Policy as mental health problems, in some cases, can be an indicator that a child has suffered or is at risk of harm.
  - Self-harm Policy which sets out detailed guidance on managing self-harm.
  - Behaviour, Rewards and Discipline Policy (the power to search and confiscate prohibited items)
  - Smoking, Alcohol and the Misuse of Drugs and Substances Policy

Parents will also find this a helpful document to understand the approach the School takes to mental health.

- 2.2 In appropriate cases, the School will apply the terms of the School's child protection and safeguarding policy and procedures.

## 3 The Equality Act 2010

- 3.1 The School recognises that some mental health problems will meet the definition of disability contained within the Equality Act 2010. The School will apply this policy and any related procedures in accordance with its duties under the Equality Act, including the duty to make reasonable adjustments.

## 4 The Policy aims

- Promote good mental health in all staff and pupils;
- Increase understanding and awareness of common mental health issues;
- Alert staff to early warning signs of mental ill health;
- Provide support to staff working with pupils with mental health issues;
- Provide support to pupils suffering mental ill health and their peers and parents;
- Provide specific guidance on the management of common mental health problems;
- Provide specific guidance on absence from school and reintegration to school.

## 5 Lead members of staff

- 5.1 Whilst all staff have a responsibility to promote the good mental health of pupils, staff with a specific, relevant remit include:

**Mrs Michelle Holder** Deputy Head (Pastoral)/ Designated Safeguarding Lead (DSL)/ Mental Health Lead

**Mrs Brooke Kenwright** Head of Middle School/ Deputy DSL/Head of PSHEE

**Mr Stephen Allen** Assistant Head of Sixth Form/ Deputy DSL

**Mrs Bernadette O’Gorman** School Nurse  
**Mrs Amanda Fryer** School Nurse

## 6 Staff training

- 6.1 All staff are aware of the terms of this policy and how to deal with suspected mental health problems at school.
- 6.2 As a minimum, all staff will receive regular training about recognising and responding to mental health issues as part of their regular child protection training in order to enable them to keep pupils safe. Some members of staff are also trained Mental Health First Aiders. Appropriate additional training will be provided to staff where such a need is identified (i.e. due to the ongoing needs of a current student).
- 6.3 Staff have membership and full access to The Wellbeing Hub – [www.teentips.co.uk](http://www.teentips.co.uk). This provides a programme of comprehensive training and a wealth of resources for teaching staff which forms part of staff training on mental health issues.

## 7 Teaching about mental health

- 7.1 The skills, knowledge and understanding needed by our pupils to keep themselves and others physically and mentally healthy and safe are included as part of our PSHEE curriculum.
- 7.2 The specific content of lessons will be determined by the specific needs of the pupils we are teaching but there will always be an emphasis on enabling pupils to develop the skills, knowledge, understanding, language and confidence to seek help, as needed, for themselves or others.

- 7.3 The School follows PSHEE Association Guidance to ensure that we teach mental health and emotional wellbeing issues in a safe and sensitive manner.

## 8 Signposting

- 8.1 The School will ensure that staff, pupils and parents are aware of sources of support within School and in the local community. Appendix D outlines the support which is available within the School and local community, who it is aimed at and how to access it.
- 8.2 The Mental Health Lead will display relevant sources of support on the pastoral noticeboard. The Head of PSHEE and the School Nurse will regularly highlight sources of support to pupils within relevant parts of the curriculum. They will ensure pupils understand:
- What help is available
  - Who it is aimed at
  - How to access it
  - Why to access it
  - What is likely to happen next

## 9 Identifying pupils with possible mental health problems

### *Warning Signs*

- 9.1 School staff may become aware of warning signs which indicate a pupil is experiencing mental health or emotional wellbeing issues. These warning signs should **always** be taken seriously and staff observing any of these warning signs should communicate their concerns with the Mental Health Lead.
- 9.2 Possible warning signs include:
- physical signs of harm that are repeated or appear non-accidental;
  - sudden weight loss;
  - changes in eating / sleeping habits (excessive tiredness);
  - increased isolation from friends or family, becoming socially withdrawn;
  - changes in activity and mood;
  - lowering of academic achievement;
  - talking or joking about self-harm or suicide;
  - abusing drugs or alcohol;
  - expressing feelings of failure, uselessness or loss of hope;
  - changes in clothing e.g. long sleeves in warm weather;
  - secretive behaviour;
  - missing/trying to miss PE or getting changed secretly;
  - lateness to or absence from school;
  - repeated physical pain or nausea with no evident cause; and
  - an increase in lateness or absenteeism.
- 9.3 The School understands the important role it can play in identifying and supporting pupils with mental health, or suspected mental health, problems.

- 9.4 Further details regarding recognising and managing common mental health problems are included in **Appendix A**. Understanding common mental health problems can assist staff in recognising when a pupil may be in need of support. However, School staff should not act as mental health experts and should not try to diagnose conditions.

### *Pupil disclosures*

- 9.5 A pupil may choose to disclose concerns about themselves or a friend to any member of staff. All staff need to know how to respond appropriately to a disclosure.
- 9.6 If a pupil chooses to disclose concerns about their own mental health or that of a friend to a member of staff, the member of staff should listen and their response should always be calm, supportive and non-judgemental.
- 9.7 All disclosures should be recorded in writing and passed to the DSL/Mental Health Lead.

### *Staff*

- 9.8 If a member of staff is concerned for a pupil's immediate health, safety or welfare he or she should take immediate steps to safeguard that pupil, including applying the normal child protection procedures or the normal procedures for medical emergencies. This may include seeking medical assistance and/or contacting the emergency services if necessary. Once the pupil's needs are immediately protected, the member of staff must contact the Mental Health Lead/Designated Safeguarding Lead without delay.
- 9.9 Where it is determined that there is no immediate threat to a pupil's health, safety and welfare, staff should report any concerns to the Mental Health Lead/Designated Safeguarding Lead as soon as reasonably practicable. The Mental Health Lead/Designated Safeguarding Lead will then consider the position and coordinate an appropriate response.
- 9.10 Where a referral to CAMHS is deemed appropriate, this will be led and managed by the Mental Health Lead/Designated Safeguarding Lead. Guidance about referring to CAMHS is provided in Appendix E.

## **10 Supporting pupils with mental health problems**

- 10.1 Where a pupil has been identified as having a mental health problem or a suspected mental health problem, the School will establish a structured response designed to safeguard that pupil's health, safety and welfare, which will include carrying out and updating the risk assessment for pupil welfare, as appropriate.
- 10.2 Support provided may include, as appropriate:
- placing a pupil on a pastoral list and agreeing intervention;
  - check-in meetings with the pupil and active monitoring;
  - relevant conversations with the pupil and/or family;
  - seeking appropriate medical assistance including, where necessary contacting the emergency services;
  - making a referral to external services such as 'CAMHS' or independent counselling/psychiatric care;
  - referral to children's services;

- where the pupil has been absent from School, steps to support reintegration; and
- determining if it is in the best interests of the pupil to attend School or related activities.

10.3 The support provided will vary on a case by case basis depending the risk identified and any specific mental health problem identified. Further details on what specific support may be provided is available at **Appendix A**.

## 11 Individual care plans

11.1 It may be helpful to draw up an individual care plan for pupils causing concern or who receive a diagnosis pertaining to their mental health. This should involve the pupil, the parents and relevant health professionals. This can include:

- details of a pupil's condition;
- special requirements and precautions;
- medication and any side effects;
- what to do, and who to contact in an emergency; and
- the role the School can play.

## 12 Confidentiality and information sharing

12.1 It is important that the families of pupils who have, or have had, mental health problems are encouraged to share this information with the school. The School needs to know of the pupil's circumstances in order to provide proper support and ensure that reasonable adjustments can be made to enable them to learn and study effectively. Pupils and their families can share their relevant health information on the understanding that the information will be shared on a strictly need-to-know basis. In other words, only those who need to know will be informed. The School asks for a confidential reference from a pupil's previous school and specifically asks whether there are any pastoral or medical issues of which the School should be aware in order to discharge our duty of care.

12.2 The School will balance a pupil's right of confidentiality against the School's overarching duties to safeguard pupils' health, safety and welfare and to protect pupils from suffering significant harm. Where a pupil withholds consent and/or in any other circumstances where the School considers it necessary and proportionate to the need and level of risk, confidential information may be shared with staff, parents, medical professionals and external agencies on a need to know basis.

12.3 Whilst attending school pupils may choose to confide in a member of School staff if they are concerned about their own welfare or that of a peer. Pupils need to be made aware that it may not be possible for staff to offer complete confidentiality. **If a member of staff considers a pupil to be at serious risk of harm then confidentiality cannot be kept.** It is important not to make promises of confidentiality that cannot be kept even if a pupil puts pressure on a member of staff to do so.

## 13 Working with parents

13.1 Where it is deemed appropriate to inform parents, the staff need to be sensitive in their approach. Before disclosing to parents, they should consider the following questions (on a case by case basis):

13.2 Can the meeting happen face to face? This is preferable.

- Where should the meeting happen? At school or somewhere neutral?
- Who should be present? Consider parents, the pupil, and other members of staff;
- What are the aims of the meeting?

13.3 It can be shocking and upsetting for parents to learn of their child's issues and many may respond with anger, fear or upset during the first conversation. Staff should be accepting of this (within reason) and give the parent time to reflect.

13.4 Staff should always highlight further sources of information where possible as parents will often find it hard to take much in whilst coming to terms with the news we are sharing. Sharing sources of further support aimed specifically at parents can also be helpful too e.g. parent helplines and forums.

13.5 Staff should always provide clear means of contacting them with further questions and consider making a date for a follow up meeting or phone call. Each meeting should finish with the agreed next step(s) and a brief record of the meeting should always be kept on the pupil's confidential record.

13.6 In order to support parents, staff will:

- ensure that all parents are aware of who to talk to if they have concerns about their own child or a friend of their child;
- make our mental health policy easily accessible to parents;
- share ideas about how parents can support positive mental health in their children through our regular information evenings/parental seminars; and
- keep parents informed about the mental health topics their children are learning about in PSHEE and share ideas for extending and exploring this learning at home.

## **14 Supporting peers**

14.1 When a pupil is suffering from mental health issues, it can be a difficult time for their friends. Friends often want to support but do not know how. In the case of self-harm or eating disorders, it is possible that friends may learn unhealthy coping mechanisms from each other. In order to keep peers safe, we will consider on a case by case basis which friends may need additional support. Support will be provided either in one to one or group settings and will be guided by conversations by the pupil who is suffering and their parents if appropriate.

## **15 Absence from school**

15.1 If a pupil is absent from School for any length of time then appropriate arrangements will be made to send work home. This may be in discussion with any medical professionals who may be treating a pupil. If a pupil is an inpatient, Heads of Section will liaise with the teachers at the hospital to ensure appropriate work is provided or that teachers are aware of how to help a pupil join a lesson in Microsoft Teams.

## **16 Management of pupil mental health concerns in school**

- 16.1 The Headmistress and the Mental Health Lead/Designated Safeguarding Officer will consider whether a pupil is able to remain in school. A review will be considered on a case by case basis and will evaluate whether the pupil is a risk to themselves or to others; the impact on the wellbeing and safety of other members of the community; and whether a pupil's mental health concern cannot be managed effectively and safely within the School, The Headmistress reserves the right to request that parents withdraw their daughter temporarily until appropriate reassurances have been met.

## **17 Reintegration to school**

- 17.1 Should a pupil require some time out of school, the School will be fully supportive of this and every step will be taken in order to ensure a smooth reintegration back into school when they are ready. The Deputy Head (Pastoral) will work alongside any external agencies, the Deputy Head (Academic), the Head of Section, the School Nurse, the pupil and their parents to draw up an appropriate care plan. The pupil should have as much ownership as possible with regards the ICP so that they feel they have control over the situation. If a phased return to school is deemed appropriate, this will be agreed with the parents.

## **18 Management of mental health on school trips**

- 18.1 Certain mental illnesses may present a risk to the pupil and or the community of pupils on School trips, particularly where a trip is residential. If the Deputy Head (Pastoral) has concerns about a pupil's welfare on a trip she may request medical certification that a pupil is fit to attend. Parents and a multi-agency team or the School Nurse and pastoral team will draw up an individual risk assessment for a pupil to attend a trip. If the Headmistress regards the risk to the pupil, staff and/or other pupils to be too high she may request that a pupil withdraws from a trip including where medical certification of fitness to attend has been given. In making this decision the Headmistress will consider any appropriate reasonable adjustments.

## **19 Record keeping**

- 19.1 All records created in accordance with this policy are managed in accordance with the School's policies that apply to the retention and destruction of records.
- 19.2 All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing.
- 19.3 The School will record all discussions with external agencies made and the reasons for them, and detail the action taken.

## **20 Policy review**

- 20.1 This policy will be reviewed and updated as appropriate. If you have a question or suggestion about improving this policy, this should be addressed to the Mental Health Lead, the Deputy Head (Pastoral), who can be contacted via the School Office.

<b>Signed by:</b>	<b>Hugh Venables</b> <b>Chair of Governors</b>
<b>Date of adoption of this policy:</b>	January 2022
<b>Date of last review of this policy:</b>	January 2022
<b>Date for next review of this policy:</b>	Autumn 2022
<b>Policy Owner:</b>	Deputy Head (Pastoral)

## Appendix A: Further information and sources of support about common mental health issues

### 1 Prevalence of mental health and emotional wellbeing issues<sup>1</sup>

- 1 in 10 children and young people aged 5 - 16 suffer from a diagnosable mental health disorder - that is around three children in every class.
- Between 1 in every 12 and 1 in 15 children and young people deliberately self-harm.
- There has been an increase in the number of young people being admitted to hospital because of self-harm. Over the last ten years this figure has increased by 68%.
- More than half of all adults with mental health problems were diagnosed in childhood. Less than half were treated appropriately at the time.
- Nearly 80,000 children and young people suffer from severe depression.
- The number of young people aged 15-16 with depression nearly doubled between the 1980s and the 2000s.
- Over 8,000 children aged under 10 years old suffer from severe depression.
- 3.3% or about 290,000 children and young people have an anxiety disorder.
- 72% of children in care have behavioural or emotional problems - these are some of the most vulnerable people in our society.

Below, we have sign-posted information and guidance about the issues most commonly seen in children. The links will take you through to the most relevant page of the listed website. Support on all of these issues can be accessed via [Young Minds \(www.youngminds.org.uk\)](http://www.youngminds.org.uk), [Mind \(www.mind.org.uk\)](http://www.mind.org.uk) and (for e-learning opportunities) [Minded \(www.minded.org.uk\)](http://www.minded.org.uk).

### 2 Youth Mental Health First Aid and use of the ALGEE Principle

Those trained in Youth Mental Health First Aid may employ the ALGEE principle in discussion with pupils suffering a mental health crisis. They should report any conversation to the Mental Health Lead and write this up on the MyConcern reporting system. They may subsequently be asked to assist in drawing up an ICP.

- Assess for risk of suicide or harm
- Listen non-judgmentally
- Give reassurance and information
- Encourage appropriate professional help
- Encourage self-help and other support strategies

### 3 Specific guidance on identifying and managing eating disorders

#### ***Eating problems:***

Food, weight and shape may be used as a way of coping with, or communicating about, difficult thoughts, feelings and behaviours that a young person experiences day to day. Some young people develop eating disorders such as anorexia (where food intake is restricted), binge eating disorder and bulimia nervosa (a cycle of bingeing and purging). Other young people, particularly those of primary or preschool age, may develop problematic behaviours around food including refusing to eat in certain situations or with certain people. This can be a way of communicating messages the child does not have the words to convey.

Pooky Knightsmith (2015) *Self-Harm and Eating Disorders in Schools: A Guide to Whole School Support and Practical Strategies*. London: Jessica Kingsley Publishers

Pooky Knightsmith (2012) *Eating Disorders Pocketbook*. Teachers' Pocketbooks

#### ***Definition of eating disorders:***

Anyone can get an eating disorder regardless of their age, gender or cultural background. People with eating disorders are preoccupied with food and/or their weight and body shape, and are usually highly dissatisfied with their appearance. The majority of eating disorders involve low self-esteem, shame, secrecy and denial. Anorexia nervosa and bulimia nervosa are the major eating disorders. People with anorexia live at a low body weight, beyond the point of slimness and in an endless pursuit of thinness by restricting what they eat and sometimes compulsively over-exercising. In contrast, people with bulimia have intense cravings for food, secretively overeat and then purge to prevent weight gain (by vomiting or use of laxatives, for example).

#### ***Risk Factors:***

The following risk factors, particularly in combination, may make a young person more vulnerable to developing an eating disorder:

##### ***Individual Factors:***

- difficulty expressing feelings and emotions;
- a tendency to comply with other's demands; and
- very high expectations of achievement.

##### ***Family Factors:***

- a home environment where food, eating, weight or appearance have a disproportionate significance;

- an over-protective or over-controlling home environment;
- poor parental relationships and arguments;
- neglect or physical, sexual or emotional abuse;
- overly high family expectations of achievement;
- social factors;
- being bullied, teased or ridiculed due to weight or appearance; and
- pressure to maintain a high level of fitness/low body weight for e.g. sport or dancing.

***Warning Signs:***

School staff may become aware of warning signs which indicate a pupil is experiencing difficulties that may lead to an eating disorder. These warning signs should always be taken seriously and staff observing any of these warning signs should seek further advice from one of the designated teachers for safeguarding children or from the medical centre.

***Physical Signs:***

- weight loss
- dizziness, tiredness, fainting
- feeling cold
- hair becomes dull or lifeless/hair loss and excessive hair growth on extremities
- swollen cheeks
- callused knuckles
- tension headaches
- sore throats/mouth ulcers
- tooth decay

***Behavioural Signs:***

- restricted eating
- skipping meals
- scheduling activities during lunch
- strange behaviour around food
- wearing baggy clothes
- wearing several layers of clothing
- excessive chewing of gum/drinking of water
- increased conscientiousness
- increasing isolation/loss of friends
- believes she is fat when she is not
- secretive behaviour
- visits the toilet immediately after meals
- excessive exercise

***Psychological Signs:***

- preoccupation with food
- sensitivity about eating
- denial of hunger despite lack of food
- feeling distressed or guilty after eating

- self dislike
- fear of gaining weight
- moodiness
- excessive perfectionism

***Staff Roles:***

Staff should report concerns in accordance with the policy. In addition to the support identified above the School may identify that it is appropriate for:

- Form Teachers being asked to monitor food intake at lunch discreetly where this is possible. However, parents should be aware that a Form Teacher will also have other pupils to attend to and that whilst a Form Teacher will do their best such monitoring can therefore not be wholly accurate or guaranteed. It is not the role of School staff to enforce or ensure that a pupil is eating at School; and
- the School Nurse to weigh a pupil when initial concerns are raised, however, the School would not normally be involved in regular weighing of a pupil.

***Management of eating disorders in school Exercise and activity – PE and games:***

Taking part in sports, games and activities is an essential part of School life for all pupils. Excessive exercise, however, can be a behavioural sign of an eating disorder. If the Deputy Head (Pastoral) and School Nurse deem it appropriate they may liaise with PE staff to monitor the amount of exercise a pupil is doing in School. They may also request that the PE staff advise parents of a sensible exercise programme for out of School hours. All PE teachers at the School will be made aware of which pupils have a known eating disorder. The School will not discriminate against pupils with an eating disorder and will enable them whenever appropriate, to be involved in sports. Advice will be taken from medical professionals, however, and the amount and type of exercise will be closely monitored. If a pupil is losing weight and medical professionals advise it a pupil may be asked to refrain from taking part in School sport. The Deputy Head (Pastoral) and School Nurse may also advise against participation in sport where a pupil is suffering from dizziness or fainting spells.

## **4 Self-harm**

Self-harm describes any behaviour where a young person causes harm to themselves in order to cope with thoughts, feelings or experiences they are not able to manage in any other way. It most frequently takes the form of cutting, burning or non-lethal overdoses in adolescents, while younger children and young people with special needs are more likely to pick or scratch at wounds, pull out their hair or bang or bruise themselves.

More detailed guidance is given in the School's Self-Harm Policy.

## 5 Depression

Ups and downs are a normal part of life for all of us, but for someone who is suffering from depression these ups and downs may be more extreme. Feelings of failure, hopelessness, numbness or sadness may invade their day-to-day life over an extended period of weeks or months, and have a significant impact on their behaviour and ability and motivation to engage in day-to-day activities.

## 6 Anxiety, panic attacks and phobias

Anxiety is a natural, normal feeling we all experience from time to time. It can vary in severity from mild uneasiness through to a terrifying panic attack. It can vary in how long it lasts, from a few moments to many years. All children and young people get anxious at times; this is a normal part of their development as they grow up and develop their 'survival skills' so they can face challenges in the wider world. In addition, we all have different levels of stress we can cope with - some people are just naturally more anxious than others, and are quicker to get stressed or worried. Concerns are raised when anxiety is getting in the way of a child's day to day life, slowing down their development, or having a significant effect on their schooling or relationships.

**How to help a pupil having a panic attack:**

- If you are at all unsure whether the pupil is having a panic attack, a heart attack or an asthma attack, and/or the person is in distress, call an ambulance straight away;
- If you are sure that the pupil is having a panic attack, move them to a quiet safe place if possible;
- Help to calm the pupil by encouraging slow, relaxed breathing in unison with your own;
- Encourage them to breathe in and hold for 3 seconds and then breathe out for 4 seconds;
- Be a good listener, without judging;

- Explain to the pupil that they are experiencing a panic attack and not something life threatening such as a heart attack;
- Explain that the attack will soon stop and that they will recover fully; and
- Assure the student that someone will stay with them and keep them safe until the attack stops.

Many young people with anxiety problems do not fit neatly into a particular type of anxiety disorder. It is common for people to have some features of several anxiety disorders. A high level of anxiety over a long period will often lead to depression and long periods of depression can provide symptoms of anxiety. Many young people have a mixture of symptoms of anxiety and depression as a result.

## **7 Obsessions and compulsions**

Obsessions describe intrusive thoughts or feelings that enter our minds which are disturbing or upsetting; compulsions are the behaviours we carry out in order to manage those thoughts or feelings. For example, a young person may be constantly worried that their house will burn down if they don't turn off all switches before leaving the house. They may respond to these thoughts by repeatedly checking switches, perhaps returning home several times to do so. Obsessive compulsive disorder (OCD) can take many forms – it is not just about cleaning and checking.

## **8 Suicidal feelings**

Young people may experience complicated thoughts and feelings about wanting to end their own lives. Some young people never act on these feelings though they may openly discuss and explore them, while other young people die suddenly from suicide apparently out of the blue.

Reasonable adjustments for disabled pupils 2015

## **Appendix C: Data Sources**

**Children and young people's mental health and wellbeing profiling tool** collates and analyses a wide range of publicly available data on risk, prevalence and detail (including cost data) on those services that support children with, or vulnerable to, mental illness. It enables benchmarking of data between areas.

**ChiMat school health hub** provides access to resources relating to the commissioning and delivery of health services for school children and young people and its associated good practice, including the new service offer for school nursing.

**Health behaviour of school age children** is an international cross-sectional study that takes place in 43 countries and is concerned with the determinants of young people's health and wellbeing.

## Appendix D: Sources or support at school

Whilst all staff have a responsibility to promote the mental health of pupils. Staff with a specific, relevant remit include:

<b>Mrs Michelle Holder</b>	Mental Health Lead/Designated Safeguarding Lead/Deputy Head (Pastoral)/ <a href="mailto:m.holder@sjsg.org.uk">m.holder@sjsg.org.uk</a> 020 7348 1777
<b>Mrs Brooke Kenwright</b>	Head of PSHEE/DDSL <a href="mailto:b.kenwright@sjsg.org.uk">b.kenwright@sjsg.org.uk</a> 020 7348 1777
<b>Mr Stephen Allen</b>	DDSL <a href="mailto:st.allen@sjsg.org.uk">st.allen@sjsg.org.uk</a> 020 7348 1777
<b>Mrs Bernadette O’Gorman</b>	School Nurse <a href="mailto:schoolnurse@sjsg.org.uk">schoolnurse@sjsg.org.uk</a> 020 7348 1777
<b>Mrs Emily Walker</b>	Well-being Coach <a href="mailto:e.walker@sjsg.org.uk">e.walker@sjsg.org.uk</a> 020 7348 1777

Each member of staff identified can be approached directly by staff, parents and pupils. Staff may refer pupils or pupils/families may refer themselves seeking further guidance.

The School works closely with a number of external counsellors and can make a recommendation if a pupil/family requests/needs such a service. The School can also make a referral to CAMHS. Please contact the Mental Health Lead for further information.

## Appendix E: What makes a good CAMHS referral?<sup>2</sup>

If the referral is urgent it should be initiated by phone so that CAMHS can advise of best next steps.

Before making the referral, have a clear outcome in mind, what do you want CAMHS to do? You might be looking for advice, strategies, support or a diagnosis for instance.

You must also be able to provide evidence to CAMHS about what intervention and support has been offered to the pupil by the School and the impact of this. CAMHS will always ask 'What have you tried?' so be prepared to supply relevant evidence, reports and records.

### ***General considerations:***

- Have you met with the parent(s) and the referred child/children?
- Has the referral to CAMHS been discussed with a parent and the referred pupil?
- Has the pupil given consent for the referral?
- Has a parent given consent for the referral?
- What are the parent/pupil's attitudes to the referral?

### ***Basic information:***

- Is there a child protection plan in place?
- Is the child looked after?
- name and date of birth of referred child/children;
- address and telephone number;
- who has parental responsibility?
- surnames if different to child's;
- GP details;
- What is the ethnicity of the pupil/ family;
- Will an interpreter be needed? and
- Are there other agencies involved?

### ***Reason for referral:***

- What are the specific difficulties that you want CAMHS to address?
- How long has this been a problem and why is the family seeking help now?
- Is the problem situation-specific or more generalised?
- Your understanding of the problem/issues involved.

### ***Further helpful information:***

- Who else is living at home and details of separated parents if appropriate?

---

<sup>2</sup> Adapted from Surrey and Border NHS Trust

- Name of school
- Who else has been or is professionally involved and in what capacity?
- Has there been any previous contact with our department?
- Has there been any previous contact with Children's Services?
- Details of any known protective factors;
- Any relevant history i.e. family, life events and/or developmental factors;
- Are there any recent changes in the pupil's or family's life?
- Are there any known risks, to self, to others or to professionals?
- Is there a history of developmental delay e.g. speech and language delay; and
- Are there any symptoms of ADHD/ASD and if so have you talked to the Educational psychologist?

The screening tool below will help to guide whether or not a CAMHS referral is appropriate.

INVOLVEMENT WITH CAMHS		DURATION OF DIFFICULTIES	
	Current CAMHS involvement – <b>END OF SCREEN*</b>		1-2 weeks
	Previous history of CAMHS involvement		Less than a month
	Previous history of medication for mental health issues		1-3 months
	Any current medication for mental health issues		More than 3 months
	Developmental issues e.g. ADHD, ASD, LD		More than 6 months

**\* Ask for consent to telephone CAMHS clinic for discussion with clinician involved in young person's care**

*Tick the appropriate boxes to obtain a score for the young person's mental health needs.*

MENTAL HEALTH SYMPTOMS	
1	Panic attacks (overwhelming fear, heart pounding, breathing fast etc.)
1	Mood disturbance (low mood - sad, apathetic; high mood - exaggerated/unrealistic elation)
2	Depressive symptoms (e.g. tearful, irritable, sad)
1	Sleep disturbance (difficulty getting to sleep or staying asleep)
1	Eating issues (change in weight/eating habits, negative body image, purging or binging)
1	Difficulties following traumatic experiences (e.g. flashbacks, powerful memories, avoidance)
2	Psychotic symptoms (hearing and/or appearing to respond to voices, overly suspicious)
2	Delusional thoughts (grandiose thoughts, thinking they are someone else)
1	Hyperactivity (levels of overactivity & impulsivity above what would be expected; in all settings)
2	Obsessive thoughts and/or compulsive behaviours (e.g. hand-washing, cleaning, checking)

**Impact of above symptoms on functioning - circle the relevant score and add to the total**

Little or none	Score = 0	Some	Score = 1	Moderate	Score = 2	Severe	Score = 3
----------------	-----------	------	-----------	----------	-----------	--------	-----------

<b>HARMING BEHAVIOURS</b>	
1	History of self harm (cutting, burning etc)
1	History of thoughts about suicide
2	History of suicidal attempts (e.g. deep cuts to wrists, overdose, attempting to hang self)
2	Current self harm behaviours
2	Anger outbursts or aggressive behaviour towards children or adults
5	Verbalised suicidal thoughts* (e.g. talking about wanting to kill self / how they might do this)
5	Thoughts of harming others* or actual harming / violent behaviours towards others

**\* If yes – call CAMHS team to discuss an urgent referral and immediate risk management strategies**

<b>Social setting - for these situations you may also need to inform other agencies (e.g. Child Protection)</b>	
Family mental health issues	Physical health issues
History of bereavement/loss/trauma	Identified drug / alcohol use
Problems in family relationships	Living in care
Problems with peer relationships	Involved in criminal activity
Not attending/functioning in school	History of social services involvement
Excluded from school (FTE, permanent)	Current Child Protection concerns

**How many social setting boxes have you ticked? Circle the relevant score and add to the total**

0 or 1	Score = 0	2 or 3	Score = 1	4 or 5	Score = 2	6 or more	Score = 3
--------	-----------	--------	-----------	--------	-----------	-----------	-----------

**Add up all the scores for the young person and enter into Scoring table:**

Score 0-4	Score 5-7	Score 8+
Give information/advice to the young person	Seek advice about the young person from CAMHS Primary Mental Health Team	Refer to CAMHS clinic

**\*\*\* If the young person does not consent to you making a referral, you can speak to the appropriate CAMHS service anonymously for advice \*\*\***

## Appendix F Mental Health pro-forma and ICPs

The following pro-forma for mental health plans and ICPs, may be used for pupils or staff.

### **Mental Health Plan:**

#### **Key Numbers**

- Parents
- My therapist:
- My GP:

#### **Scale for check in:**

(Scale of 1-5 should be created by staff or pupil for whom the plan is being created)

#### **Regularity of check-ins:**

#### **Check in people within School:**

#### **Next steps to be taken, defined by pupil or staff member:**

#### **Current arrangement:**

#### **Date:**

**Individual Care Plan (ICP) for pupils with mental health/emotional concerns**

**Name:**

**Date:**

**Form Teacher:**

**Lower/Middle/Upper School/Sixth Form  
(delete as appropriate)**

**Symptoms:**

**Receiving treatment? Yes/No**

**Parental involvement and guidance:**

**External agencies (e.g. GP, Children's Services, CAMHS):**

**Advice for staff:**

**Goal:**

**Review arrangements:**
